REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Each independent claim 46, 58 and 69 recites encoding that includes illuminant-neutral gray component replacement (GCR) wherein the neutrality of the replacement colorant is illuminant dependant, whereby the replacement colorant is non-neutral under white light and neutral under the selected one of the N narrow band illuminants.

The prior art discloses gray component replacement that uses black ink as the replacement colorant. Black ink is neutral under white light as well as neutral under a narrowband illuminant.

The illuminant-neutral gray component replacement colorant that is non-neutral under white light and neutral under the selected one of the N narrow band illuminants as recited in all independent claims is novel and non-obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
